EDGE - 17mm

Self adhesive edge trim.
Available in 8mm - 17mm sizes.

NB. Drawings not to scale.

PRODUCT DATA

Material:

Aluminium 6063-T5

Alloying elements:

Si (0.2-0.6%), Mg (0.45-0.9%), with the remainder being Al and trace impurities.

Mechanical properties:

Tensile strength (b) for 6063-T5: ≥ 160 MPa
Yield strength (0.2) for 6063-T5: ≥ 110 MPa
Elongation (): $\geq 8\%$
Hardness: 6063-T5 ≥ 8 HW (Wehb hardness)

Environmental performance:

Corrosion resistance:

Salt spray test (NSS) – anodized film ≥ 500 hours without corrosion

Surface treatment film thickness (anodizing):

AA15 (film thickness ≥ 15 μm)

Weather resistance:

UV aging test (QUV) – 500 hours

Surface treatment:

Anodizing

Lengths available:

900mm, 2700mm
